## **ABOUT THIS DOCUMENT**

---

### **ORIGINAL INSTRUCTIONS**

---

**This manual provides information for the HYTORC Offset Links as follows;**

**Models: OFFSET LINKS OL, OFFSET LINK ZOL and OFFSET LINK ZOL-DS models for imperial and metric sizes.**

**Notice.** The information contained in this document is subject to change without notice. HYTORC Division UNEX Corporation ("HYTORC") makes no warranty of any kind about this material, including but not limited to, the implied warranties of merchantability and fitness for a particular purpose. HYTORC shall not be liable for errors contained herein or for incidental or consequential damages in connection with the furnishing, performance, or use of this material. It is further recommended that the end-user or repair technician ensure they have obtained and are familiar with the latest revision of the manual for the equipment outlined in this document.

**Restricted Rights Legend.** Use and duplication of the information contained within this manual is limited to the purchaser, end user, or licensed HYTORC representative. It is recommended that proper training for the equipment outlined in this manual be conducted by a HYTORC-authorized training representative for any person who is operating or repairing the equipment outlined in this document. Modification of, or disclosure by any other agency or representative is strictly forbidden.

**Product Modifications.** HYTORC does not allow any product in this manual to be modified by any end user, without exception. Should an application require modification to a product please consult your local HYTORC representative.

**NOTICE OF PROPRIETARY RIGHTS:** HYTORC is the owner of all content included in this document and all right, title and interest to such content shall remain with HYTORC.

**COPYRIGHT NOTICE: © 2021 HYTORC.** Reproduction, adaptation, or translation without prior written permission is prohibited, except as allowed under the copyright laws.

**TRADEMARK NOTICE:** This document contains numerous registered trademarks and servicemarks of HYTORC in the U.S. and other countries.

**PATENT NOTICE:** Products in this document are covered by issued and/or pending patents in the U.S. and other countries.

**Warranty.** Every tool is tested before leaving the factory and is warranted to be free from defects in workmanship and materials. HYTORC will repair or replace, without charge, any tool which, upon examination, proves defective in workmanship or materials for one (1) year after the date of purchase. This warranty does not cover damage resulting from repairs made or attempted by unauthorized repair facilities. The repair and replacement remedies described herein are exclusive. In no event shall HYTORC be liable for any incidental, special, or consequential damages, including loss of profits. This warranty is exclusive and in lieu of all other warranties or conditions, written or oral, expressed or implied for merchantability or fitness for particular use or purpose. This warranty gives you specific legal rights. You may also have other rights that vary from state to state and province to province. In those states that do not allow the exclusion of implied warranties or limitation of incidental or consequential damages, the above limitations or exclusions may not apply to you. If you have questions about the warranty, contact our customer service center at 201-828-5270.

## 1. OFFSET LINK DESCRIPTION

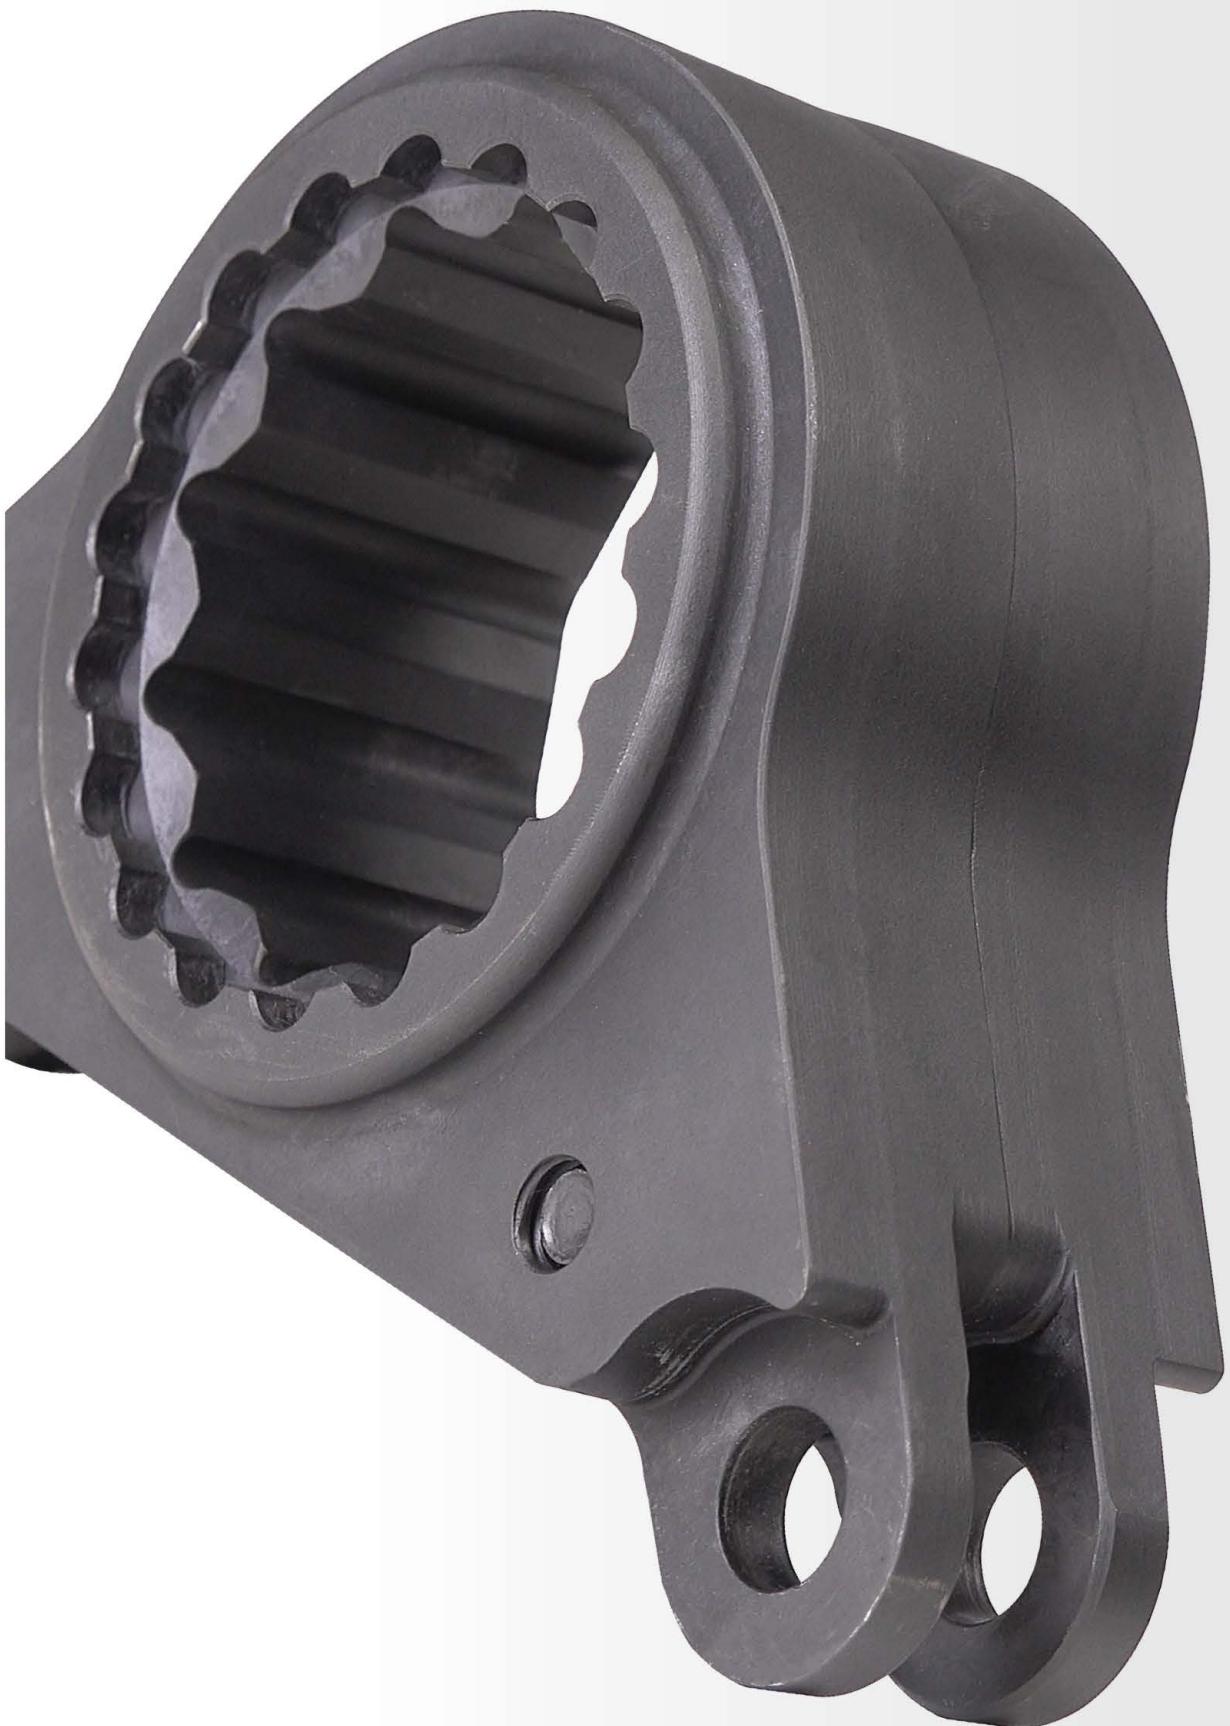

The HYTORC Offset Link provides an extension for HYTORC square drive tools allowing operators to tighten bolts that are difficult or impossible to reach where there is limited overhead clearance or nearby obstructions. The Offset Links also work great where bolts protrude above the nut where standard sockets won't fit. The Offset Link provides interchangeable cartridges that allow the links to be quickly interchanged in the field to fit different size nuts. The HYTORC Offset Link delivers accurate torque from the square drive tool to the fastener to minimize operator error and improve safety.

- Offset links are available in three different model types:
  - OL – Standard Model with 12-point HEX pattern
  - ZOL – Washer Model with 12-point HEX pattern on one side and washer pattern on other
  - ZOL-DS – Double Washer Model with double washer pattern and internal 12-point HEX
- The Offset Link is designed to operate with modern HYTORC Hydraulic, Pneumatic and Electric Torque Tools with  $\frac{3}{4}$ " and 1" square drives
- The Offset Link housing is manufactured from lightweight aerospace aluminum alloy for high strength and increased corrosion resistance.
- The Offset Link cartridges are manufactured from tempered chrome-moly steel for unmatched toughness, wear resistance and increase fatigue strength.

### OFFSET LINK DIAGRAM

SEC.  
2

**MODEL TYPES****OL TYPE - STANDARD MODEL**

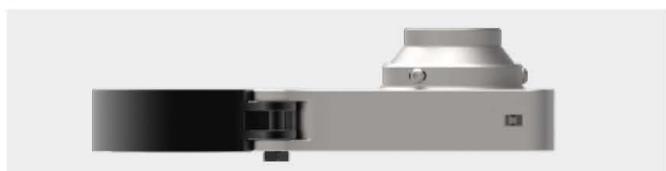

- Compatible with HYTORC Torque Tools with  $\frac{3}{4}$ " or 1" square drives
- Cartridge with 12-Point hex pattern
- Includes reaction arm.

**ZOL TYPE - WASHER MODEL**

- Compatible with HYTORC Torque Tools with  $\frac{3}{4}$ " or 1" square drives
- Cartridge with 12-Point hex and Washer pattern
- Does not require use of a reaction arm.

**ZOL-DS TYPE - DOUBLE WASHER MODEL**

- Compatible with HYTORC Torque Tools with  $\frac{3}{4}$ " or 1" square drives
- Cartridge pattern with double washer pattern and internal 12-point hex
- Does not require use of a reaction arm.

**LOL.25 TYPE - SPECIAL LION GUN MODEL**

- Special Offset Link for HYTORC LION GUN .25 with  $\frac{1}{2}$ " square drive
- Cartridge with 12-point hex pattern
- Includes reaction arm.

**MODEL PART NUMBER**

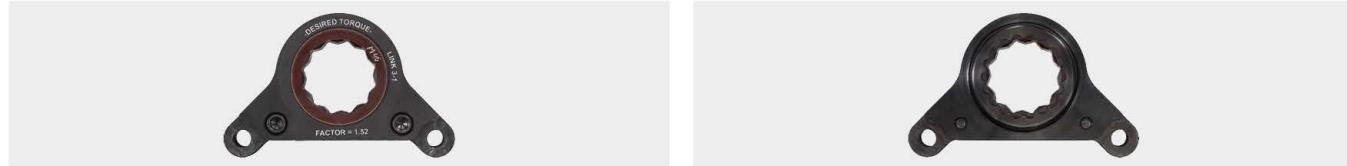

To fully identify the desired product, the model designation and appropriate options are specified in the part number according to the following scheme.

**OFFSET LINK HOUSING**

PART NUMBER	DESCRIPTION
<b>LOL.25-A0100</b>	LIONGUN-.25 Offset Link Housing
<b>OL1-A0100</b>	3/4" Drive Offset Link Housing (Not Compatible with AVANTI-.7)
<b>OL3-A0100</b>	1" Drive Offset Link Housing

## OFFSET LINK CARTRIDGE

MODEL DESIGNATION		DRIVE TYPE	BOLT CODE	HEX CODE	ASSEMBLY CODE	SIDE CODE
MODEL TYPE		DRIVE SIZE	OPTIONAL BOLT DIAMETER	FOR HEX SIZE AF	ASSEMBLY CODE	OPTIONAL DS
OL	Standard Hex Offset Link Cartridge	1 for 3/4" Drive and LIONGUN-.25	Nominal Bolt Diameter only used with ZOL models - Table 2.	Table 1	X = Assembled	DS - Double-sided only available with ZOL models
ZOL	HYTORC Washer Offset Link Cartridge	3 for 1" Drive				

To properly specify the offset link, the required HEX Code is necessary to complete the part designation code. The HEX code is available for both 3/4" and 1" Square drives, metric and imperial nuts. The HEX Code is the code that HYTORC uses to specify the width across flats (AF) of a nut that is the distance measured, perpendicular to the axis of the nut, overall, between two opposite sides of the nut.

3-1/4	304		
3-1/2	308		

The HYTORC Offset Links Z-DS model types require the identification of the BOLT CODE. HYTORC defines the BOLT CODE to indicate the nominal bolt size that is compatible with HYTORC Reaction washers. In some situation the same code is applied to both metric and imperial washers.

**TABLE 2 - BOLT CODE**

BOLT CODE - SPECIFIED FOR ZOL MODELS			
NOMINAL BOLT DIAMETER		BOLT CODE	REFERENCE REACTION WASHER COMPATIBILITY

## 5. OFFSET LINK EXAMPLES

HYTORC Offset Links can be configured with different cartridges and reaction arm to fit or bolting applications. Following the part designation and tables provided, correct configuration of the HYTORC Offset Link is necessary when ordering the product with our Customer Services.

EXAMPLE	DESCRIPTION	DESCRIPTION
<b>OL1 - 012X</b>	Model OL (Standard Hex Offset Link), Drive Code 1 (3/4" Drive), (Omit Bolt Code), Hex Code 012 (3/4" AF), Assembly Code X (Assembled)	
<b>OL3 - 46MMX</b>	Model OL (Standard Hex Offset Link), Drive Code 3 (1" Drive), (Omit Bolt Code), Hex Code 46MM (45 mm AF), Assembly Code X (Assembled)	
<b>ZOL1 - 012 - 104X</b>	Model ZOL (HYTORC Washer Offset Link), Drive Code 1 (3/4" Drive), Bolt Code 012 (3/4" Bolt Diameter), HEX Code 104 ( 1-1/4" AF HEX), Assembly Code X (Assembled)	
<b>ZOL3 - 114 - 75MMX- DS</b>	Model ZOL, (HYTORC Washer Offset Link), Drive Code 3 (1" Drive), Bolt Code 114 (1-7/8"/M48 Bolt Diameter), Hex Code 75MM (75 MM AF), Assembly Code X (Assembled), Side Code DS (Double Sided)	
<b>LOL.25-A0100</b>	Special Code for LIONGUN-.25	

**May, 2021** - First edition.

**September, 2021** - Offset Link Housing and cartridge Information added to pages 3-4, chart on page 10 updated, photos updated, and pages rearranged.

**December, 2021** - Offset Link Model Type name updated from "SZ Type" to "LOL.25 Type".
